O nama About us

Firma „TEHNO-AL MARINKOVIĆ“ osnovana je 1997. godine kao radionica za proizvodnju aluminijumske i PVC stolarije. Zahvaljujući odličnom kvalitetu i uslugama, radionica ubrzo postaje poznata u Jagodini i šire. Vremenom, zbog povećanja broja klijenata i obima posla, povećan je i broj zaposlenih. Godine 2005. preduzeće se seli u novoizgrađenu radionicu od 1300 m² koja se nalazi u neposrednoj blizini autoputa Beograd-Niš, gde se i danas nalazi. Svojom trudom i zalaganjem možemo se pohvaliti da smo danas ozbiljno preduzeće sa više od 50 zaposlenih, koje iz dana u dan nastavlja da se razvija i raste. Godine 2022. TEHNO-AL MARINKOVIĆ sa ponosom predstavlja svoj novi objekat površine 1100 m², gde se nalazi potpuno novo postrojenje za plastifikaciju metala (elektrostatičko farbanje) po najvišim svetskim standardima. Zahvaljujući ovim investicijama, kao i novim dodatnim prostorima pored postojećih, koji su namenjeni za proizvodnju aluminijumske i PVC stolarije, preduzeće je postiglo značajan uspeh, unapredili smo tehnologiju, povećali obim posla i zaposlili dodatnu radnu snagu.

Što se tiče poslovanja firme, sva pažnja je usmerena na kvalitet proizvoda, sa kojima se uspešno takmičimo sa konkurencijom. Ponos firme "TEHNO-AL MARINKOVIĆ" je u stvari kvalitet uz zadovoljstvo i poverenje kupaca. Svaki projekat je jedinstven i nosi individualnu priču. Nosioci smo različitih priznanja i sertifikata, uključujući standarde za sistem upravljanja kvalitetom ISO 9001:2015, upravljanje zaštitom životne sredine prema ISO 14001:2015, sertifikate za profile, okove, staklo pa čak i za finalne proizvode.

Politika firme je da zadovolji nove i sada već redovne korisnike i poslovne partnere.

The company "TEHNO-AL MARINKOVIĆ" was founded in 1997 as workshop for the production of aluminum and PVC carpentry. Thanks to excellent quality and services, the workshop soon becomes known in Jagodina and beyond. Over time, due to the increase in the number of clients and volume of work, the number of employees also increased. In 2005, the company moved in the newly built workshop of 1300 m², which is located in the immediate vicinity near the Belgrade-Nis highway, where it is still located today. With our own effort and commitment, we can boast that today we are a serious company with more than 50 employees, which continues to develop and grow day by day. In 2022, "TEHNO-AL MARINKOVIĆ" proudly presents its new building with an area of 1100 m², where the new line for metal plasticization is located, working according to the highest world standards. Thanks to these investments, as well as new additional spaces in addition to the existing ones, which are intended for production of aluminum and PVC joinery, the company achieved significant success, we improved the technology, increased the volume of work and hired an additional workforce.

As for company's mission, the company has focused all its attention on quality of its products, with which it successfully competes with the competition. Pride of the company "TEHNO-AL MARINKOVIĆ" is actually quality with satisfaction and customer confidence. Each project is unique and carries an individual story. Our company holds various awards and certificates, including standards for the quality management system ISO 9001:2015, environmental management per ISO 14001:2015, certificates for profiles, fittings, glass, and even for finished products.

The company's policy is to satisfy new and already regular users and business partners.

Profili Profiles

Brojne međunarodne kompanije sa kojima decenijama uspešno saradjujemo su Gealan, Alumil, Schuco, Elvial i Veka. PVC profili (**Gealan, Veka**) su dizajnirani da obezbede maksimalnu toplotnu izolaciju, dostupni su u Acrylcolor (Gealan) kao i u širokom spektru atraktivnih folija za dekoraciju drveta, RealWood folija i različitih boja, tako da daju veliku slobodu pri projektovanju novih objekata i prilikom renoviranja. Aluminijski profili (**Alumil, Schüco**) su idealni za teške konstrukcije, obezbeđujući visok nivo sigurnosti, hidroizolacije i reprodukcije zvuka.

Numerous international companies with whom for decades we successfully cooperate are Gealan, Alumil, Schuco, Elvial and Veka. PVC profiles (**Gealan, Veka**) are designed to provide maximum thermal insulation, they are available in Acrylcolor (Gealan) as in a wide range of attractive foils for wood decoration, RealWood foils and different colors, so they give great freedom when designing new buildings and during renovations. Aluminum profiles (**Alumil, Schüco**) are ideal for heavy structures, ensuring a high level of safety, waterproofing and sound reproduction.

Ponuda firme Company offers

Pored izrade stolarije i pogona za plastifikaciju metala, u ponudi firme se nalaze:
